

TRAIL MAP

Trail Signs

Snowmobile trail signs are bought, put up and maintained by club volunteers. The following are a sample of the types of signs you may see along the trail system. When riding, please use caution as signage can vary slightly from area to area and, at times, signage can fall down or go missing. Please do not tamper with or remove trail signs.

Thank You

DIRECTIONAL Indicates the general direction of the trail on both straightaways and gradual curves. Sometimes referred to as a reassurance marker to assure yourself that you are still on a trail. May be accompanied by other signs.

CAUTION
Informs riders that they are approaching a section of trail where potential hazards may exist, should be placed at the location of the potential hazard.

CAUTION AHEAD
Informs riders that they are approaching a section of trail where potential hazards may exist.

TRAFFIC FLOW
Informs riders that the trail is intended to be travelled in one direction.

TRAFFIC FLOW
Informs riders that the trail is intended to be travelled in both directions.

SHARP TURN RIGHT
To be used for approximate 90° right turns.

SHARP TURN LEFT
To be used for approximate 90° left turns.

SHELTER AHEAD
Informs riders that a shelter is located 2 km ahead.

ADVISORY
Informs riders that it may present hazards if you ride off the trail. May also be found along trails on private property or in sensitive areas such as wildlife management zones.

STOP
Located where coming to a full stop is well-advised. Typically found where trails intersect with roads and rail lines. Generally accompanied by a Stop Ahead sign.

STOP AHEAD
Informs rider that they are approaching a stop sign.

RAIL CROSSING
Indicates a trail comes to a railway crossing. May be accompanied with a Caution.

WINDING TRAIL
Indicates areas where there are more than two consecutive curves on the designated trail.

Tin Pan Shelter ____ KM
Can-Am Trail ____ KM

STRAIGHT ARROW
Arrow indicates that there is a substantial change in the direction of the trail. Rider should reduce speed until they clear the turn and can see a safe distance ahead.

TRAIL CLOSED
To be used before official openings and after trail is closed.

KEEP RIGHT
Reminds riders to stay on the right side of the trail.
